Technologies & Tools : GitHub, PSD, Figma, SEO, UIMaterial, FileZilla, Bitbucket.

EXPERIENCE CONTINUE

Full Stack Developer - Powai
Team Pumpkin | April 2024 - Dec 2024
- Worked on TATA-based projects, including product-based websites, focusing on user interface development with mobile compatibility and creating admin panel UIs.
- Specialize in transforming design files into high-quality code using technologies like NextJs/ReactJs, PHP Laravel, JQuery, TailwindCSS, Bootstrap, SCSS, and MySQL, ensuring UI precision and code validation.
- I efficiently manage multiple projects independently and collaboratively, often taking on leadership roles to oversee execution. My expertise includes leading frontend development while working closely with backend teams to deliver seamless and efficient solutions.

Frontend Developer - Thane
Sublimis Technologies Pvt Ltd | June 2022 - April 2024
- Worked on diverse projects, including travel, e-commerce, static, and dynamic applications, using various Frontend technologies. Focused on API integration, data management, form validation, and error handling while ensuring code quality and UI precision. Successfully managed multiple projects as an individual contributor or team member, occasionally stepping into leadership roles to oversee project execution.
- NextJs/ReactJs, TailwindCSS, HTML/SHTML, CSS/SCSS, JavaScript, JQuery.

Web Developer - Vikhroli
Primus Global Technologies - Accenture | July 2021 - June 2022
- As an Associate Web Developer, I designed, built, tested, and supported applications based on business requirements. For GSK Pharma, I created unique presentations for new medicinal product launches across various countries using HTML5, CSS3, JavaScript, jQuery, Bootstrap, and Veeva CRM Content Lab. After six months, I was promoted to manage complex projects and lead a team.

PROJECTS (some projects are non shareable as per company policy)

Tatatiscon
- Tata Tiscon is India's leading TMT rebar brand, offering superior-quality building materials, advanced automation, and exceptional support for home builders, engineers, and dealers.
- Developed and maintained a Core PHP-based webpage project for Tata Tiscon, focusing on mobile compatibility, code validation, and admin panel management. The project involved close collaboration with the backend team to ensure seamless functionality and performance.

Ecafez TataSteel
- Ecafez, powered by Tata Steel, is a digital knowledge-sharing platform designed for Emerging Corporate Accounts (MSMEs).
- I worked on this project individually, building it from scratch, including the development of the admin panel. My key responsibilities involved handling all UI-related tasks, ensuring mobile compatibility, and delivering a seamless user experience using PHP Laravel and MySQLi.

Aceboard

- Acedboard is a project management platform that helps businesses of all sizes overcome challenges and achieve their goals through efficient project execution.
- Built this project individually from scratch. Using NextJS and Tailwind CSS, I was responsible for all UI-related tasks, ensuring mobile compatibility, and delivering a seamless user experience.

Summera

- Summera is an e-commerce website that facilitates online jewelry sales.
- I was responsible for the entire front-end development, building the UI from scratch using Next.js. My work involved ensuring mobile responsiveness, writing clean and valid code, and maintaining seamless collaboration with the back-end team.
